Summary

Software Developer talented at translating customer requirements into testable engineering plans. Maintains exceptional development quality from conception through distribution. Works alongside clients and colleagues through all stages of development to produce exceptional final products.

Experience

Manulife IT Manulife IT Delivery Center | Manila, NCR **Front End Software Engineer | 01/2022 – Present**

- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Developed precise specifications for project plans using customer requirements.
- Developed software responsive for desktop and mobile views.
- Collaborated on stages of the system's development lifecycle from requirement gathering to production releases.
- Developed testable software using agile methodologies to create high-quality deliverables
- Wrote clean and dynamic code, leveraging expertise across multiple programming languages to meet diverse requirements.
- Aligned projects with requirements and specifications to deliver above-benchmark results.
- Contributed to sprint planning, prioritizing backlogs to meet new demands.
- Built and maintained code libraries used to produce consistent and reliable code.
- Wrote and developed new and well-tested code for different software projects.
- Assisted the quality assurance team with testing software, investigating bugs, and developing test cases.
- Supported software code review, system integration, and validation in line with company and regulatory requirements.
- Managed team resources to deliver on sprint goals within expected timeframes.

Infor PSSC | Manila, NCR **Front End Software Engineer | 10/2018 – 12/21**

- Updated old code bases to modern development standards, improving functionality.
- Discussed issues with team members to provide resolution and apply best practices.
- Developed clear specifications for project plans using customer requirements.
- Migrate the Angular project to an updated Angular version.
- Kept pace with changing coding standards and requirements and maintained updated software.

Forever Rich Philippines | Manila, NCR
Software Engineer | 09/2013 – 10/2018

- Work as a Full Stack Developer (C#, Javascript, AngularJS, JQuery, PHP).
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs, and enhancements. Reviewed code, debugged problems, and corrected issues.
- Developed functional databases, applications, and servers to support websites on the back-end.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs, and enhancements. Reviewed code, debugged problems, and corrected issues.
- Developed functional databases, applications, and servers to support websites on back-end. Design database and developed stored procedure.
- Contributed to back-end experience and collaborated on APIs.
- Participate in designing and providing informative dashboards and reports. Developed and integrated shipment processing features.
- Responded to queries on private messages or comments to address issues and resolve complaints.
- Developed and integrated payment processing features.
- Liaised with the team to develop content and choose applicable solutions to create and maintain the website.
- Designed layout and graphics to enhance the aesthetics and appearance of the website.

Front-End Development

- HTML
- JavaScript
- CSS/SCSS
- TypeScript
- Angular Framework

Back-End Development

- C# .NET
- PHP
- MySQL / SQL

Tools

- Git Repository
- Jira Ticketing

Soft Skills

- Strong problem-solving
- Analytical skills
- Collaboration
- Communication

Education

Far Eastern University | Manila, NCR
Bachelor of Science in Information Technology | 05/2013
